1. ALL Ishin Premium sold by our company is triple glutathione blend. We have invested a lot in certifications ISO, FDA, Japan Certificate, Halal Certificate, Good Manufacturing Practice and Hazard Analysis Critical Control Points (HACCP). You can find all the certifications [here](#). Why would we provide a cheap product after having invested in all these certifications? We only provide high quality products.
2. There is no China / Malaysian / Thai Version of Ishin Premium. All raw materials are imported in tons from Japan and produced in the Philippines. Raw materials are from Japan because they are high quality. Production is in the Philippines because the labor is cheaper in the Philippines. However, we only follow the high quality manufacturing process of Japan. You can view our manufacturing [here](#). As you can see our manufacturing process pass international standards.
3. All Ishin Premium is shipped internationally only from the Philippines.
4. Ishin is distributed world wide through the network of distributors. All Ishin Distributors are listed [here](#).
5. We invested in an Ishin verification code that is revealed when the hologram sticker is scratched. This code is unique per bottle. All code that passes the verification process on the website is original. We understand that because Ishin is high quality and affordable there are a lot of people who would want to produce a fake version of Ishin. Here is the link to the [code verification process](#).
